Latham® HI-TECH SEEDS

L 2184 R2X

2.1 RM

PAIRS WELL WITH: L 1948 R2X and L 2295 R2X

ROUNDUP READY 2 XTEND® SOYBEANS

POSITIONING & MANAGEMENT

L 2184 R2X is slightly taller and bushier than its parent L 2084 R2. Research trial yields over the past few years are about one bushel per acre better than L 2084 R2, mostly due to the large number of lateral branches. It features the C-gene, SCN resistance from PI 88788 and moderate resistance to Brown Stem Rot. The White Mold tolerance is good with the Iron Chlorosis, and Sudden Death ratings are very good.
