LIBERTY LINK®

POSITIONING & MANAGEMENT

Here is the latest of the trio of "new wave" Liberty soybeans we are bringing into the 2019 lineup. It features the K-gene for Phytophthora, SCN resistance from PI 88788 and excellent scores for Iron Chlorosis, Brown Stem Rot, White Mold and Sudden Death. It is a nice, new Ironclad product that topped L2558L in 2017 research trials. Supply for 2019 planting will be very limited.
